

Mr. Ferrater Mora:

I am applying for the Thomas Raebun White for foreign language study abroad. I plan to study German this summer at the University of Salzburg in Austria. Because I am studying philosophy and because I like studying philosophy and because I particularly like metaphysics I feel that a working knowledge of German is imperative.

Further, I believe that studying the language in a country where it is spoken will facilitate both my verbal and written command of the language. (Maybe I can even learn to read the Wittgenstein text we have for analysis in German.)

To pursue such an academic goal, however, takes money right now I have a job, but I don't know if I will be able to meet the total expenses, hence I apply for a scholarship it is very nice of you to take the time and trouble to recommend me for this scholarship. I hope it is not too hard to find something to say.

Thank you.

[Signatura]

P.S. All applications must be in by March 1 and recommendations must go directly to Miss McPherson.

Thank you
