Dear Mr. Gilbert:

I am filing an application for a fellowship with the AAUW. As you probably know, from years of having done of it, they ask for "a testimonial of your scholarship, ability, character and personality. Included should be a critical comment on the significance of your project by major professors or others qualified to comment on its probable value. A predoctoral candidate should have a factual statement concerning the status of her work submitted by the chairman of her thesis committee. All testimonials should be sent directly to the Committee by the writers."

Would you be good enough to send a recommendation, not later than December 1, 1960, to the AAUW Educational Foundation, Committee on Fellowships Awards, 1634 Eye Street, N.W., Washington 6, D.C. What confuses me is the factual statement on my work -- are you the Chairman of my Committee in this sense?

I am not exactly clear, either, about my thesis' direction. I know that I am primarily responsible to you since I will present it under the sponsorship of the History Department. Is Ferrater Mora to be a co-sponsor? He may be interested in reading the summary--

Thank you very much indeed for this and for all other help you have given me over the years.

Sincerely,

*Joan Connelly*

A word about the return address and the many dates - I finished typing the paper early in November and planned to send it from Geneva where I must go on business, not only because of the subject matter but because the mails are so unreliable. But now I find that I will not go

to Geneva until November 16 and that is too late. So a friend is mailing it through the Apo - but when you write to me,

write directly to me, Miguel Angel & Maria 10
