OFFICE OF THE DEAN OF THE COLLEGE

August 12, 1968

Dear José,

I was delighted to have your letter today and have a little authentic information about your accident, and more important, the state of your health. So many people have asked, and there really has been very little to say.

Just as I received your letter this morning, Jean Potter appeared, and while we were talking, Milton telephoned from Wyoming, so I shared the news with them. Please give my best to Renée, and I am terribly sorry she is having such a very bad time.

If there is anything I, or anyone else at the college, can do to make your journey home as simple as possible, please do not hesitate to call on us.

With very best wishes to you both.

As ever,

(Mrs. J. Nathaniel Marshall)
