Dr. Juan Ferrater Mora  
Department of Philosophy  
Princeton University  
Princeton N.J.  
U S A

Dear Dr. Ferrater Mora :

The last time when I got news from you I learned that you should work with the philosophical department of Princeton University. I suppose that you still will be there, and therefore I send this notice to this direction.

Surely you know that I changed my full-time-professorship of Saarbrücken University with the titular-professorship of Mainz University wherefrom I received an invitation to work as a visiting professor for several months in Caracas. Here I am now just six weeks, and I shall continue for one month more. It will be quite sure that I come back here late in 1959, combining this new trip throughout South-America with an invitation to Bolivia where I count to be in fall, 1959. As you changed your address several times and as I did so too I don't know whether you got or not my different publications of the last time. I made my publisher send the following books :

- a) Zur transzendentalen Phänomenologie (Bonn 1957) - 150 pages
- ✓ b) Gewohnheit (Bonn 1958) - 600 pages
- c) Konkrete Vernunft (Bonn 1958 - "Hothacker-Festschrift") - 444 pages

And I personally sent the following articles :

- a) Ontologischer oder prognostizistischer Sinn des Naturerkennens ? (Philosophia naturalis, 1956)
- b) Geschichte als Phänomen (Ztschr. für philosophische Forschung, 1957)
- c) Transzendente Phänomenologie als erste Philosophie (Studium Generale, 1958).

I should feel highly interested in learning what is your opinion about these productions, the themes of which I am just treating here in conferences and seminars.

With all my best wishes very sincerely yours

Gerhard Funke
