

July 1, 1964

Dear Mr. Ferrater:

Where you will be your mail will soon follow ! We wish to get the enclosed off immediately.

We have also received your letter and understand perfectly about the financial arrangements. We will pay August as originally intended. However since we will be away for three weeks of that month, I wonder if you would object if two university friends of mine were to stay here the final two weeks ? They are between apartments and I know would appreciate a place to stay. We had planned to have Dorothy clean the apartment when we left, in this case we would arrange for her to come at the end of the month. She is familiar with the apartment and knows the Yeagers...all in all a fairly trustworthy touch to make your return here as satisfactory as possible. I know how important it is to leave places as well as they were found.

I shall not arrange for this "sub-sub-leasing" unless I hear from you.

We shall pay the phone bill thru either our departure or thru August should this arrangement that I have outlined above work out.

The refrigerator was not keeping cold so we had Strawbridge and Clothier people out to look at it. It seems the defrosting mechanism was faulty but now it is repaired. (\$17...).

We trust that your trip to Spain will meet your expectations. I would imagine that the temperature there might almost meet current Philadelphia specifications...our first heat wave of the summer !

4-8-64

Very sincerely,

James Hughes
