Dear Prof. Ferrater:

I am returning your film "EVERYDAYNESS" under separate cover and once again I apologize for the delay. If I may make a brief comment or two about the film -- it is a sensitive treatment of a problem that unfortunately affects many people in our society. The form was interesting in that there is no conversation but just a musical background.

Thank you very much for letting us see this film and I wish you success in other projects.

Sincerely,

Warren A. Kraetzer
