Professor José M. Ferrater-Mora
Bryn Mawr College
Bryn Mawr, Pa.

Dear Professor Ferrater;

The student who translated your chapter "orden" is unhappy with it, but nevertheless, consented to my proposal that you be allowed to see a copy. I am enclosing a copy that my wife typed.

Our students who have been doing translating are interested in publishing their results and I am proposing to my President that some of the Carnegie money that I was instrumental in getting for the College, be used to plan a set of articles from Spanish, French, German, Russian, etc.

You have not seen my bibliography on order, but it contains thousands of items that would otherwise be ignored and never brought together in a list.

Sincerely yours,

Paul Kuntz
