Dear Prof. Mora,

I have your note of 22 May. Yes, we are indeed publishing your excellent essay! Bondy, I believe, has also put it into French. We are both very grateful to you for it. Will we have a chance to meet with you this summer in Paris? Do give us a ring at the "Preuves" office when you have a free moment?

As for myself, I still hope that you will sometime find the time and motivation to return to Ortega, and write the portrait of him we should so much like to have. I am sure the French and Italian reviews, as well as "Der Monat", would be interested in it.

With greetings,
