Dear George,

Thank you very much for your letter of March 20, and, needless to say, for your desinterested interest in my candidacy for a place in the LLP. Lewis E. Hahn's letter is certainly very cordial.

I hope that the dentist's chair will not interrupt too much your working schedule. I guess you are working hard and fruitfully. I will be away April 26 through April 30, and then we leave for Spain by May 8. I very much hope that we shall be able to have lunch some time before this trip.

As I think I told you, I have finished my novel ("Claudia, mi Claudia") which will be published this year. There are some possibilities of having an English version. I am preparing a new edition of "La filosofia actual," with 50-odd new pages on a score of philosophers: Gadamer, Derrida, Deleuze et al. I am toying with the idea of a book on aesthetic subjects.

Warm wishes,

for
