Dear Jose-

Gary Francione has informed me of your possible willingness to serve on the Advisory Board of our Foundation. You will understand me well when I say how very pleased I am to learn that may see your way clear to joining with us. I had assumed that you would be far too busy to take on yet another task. Certainly your name will add lustre to ours. If, as I hope, you are able to accept my invitation to serve on the Board, I would appreciate receiving an eight-to-ten sentence bio-sketch at your earliest convenience.

As a Board member your ideas and support will be actively sought. There is a great deal that needs to be done, a great deal that can be done. For example, I know of our common interest in film. (You may be interested to learn of my recently completed film, WE ARE ALL NOAH, which makes the challenge of animal rights in the language of Judaism and Christianity. Thus far (see enclosure) the film has received strong, favorable reviews). There are other films to be made, of no less importance than this one. Your suggestions and other help in this field will be especially valued and welcome.

Thank you for your consideration and understanding. I shall look forward to your reply in the hope that it will be affirmative. Until then, I am,

Yours sincerely,

Tom

Tom Regan,
President

P.S. Please tell Priscilla that I read her review of Fox's book. Kindly tell her how much I admired it.

P.P.S. I should add that Gary has a reputation of making other persons' lives basier than they had bargined for! So if his advice on this occasion goes awry, I hope you won't hold that against him. Our common friendship with him is another of our shared interests.
