

Professor J. Ferrater-Mora  
Page Two  
August 18, 1977

the work of the medieval Arabic logicians; (6) work in value theory and social philosophy (distributive justice; welfare) to bring modern techniques (game theory, decision theory) to bear on the analysis of traditional issues.

Needless to say I would be happy to provide more detail about any of this, but knowing the problems involved I suggest you would be helped more by omissions than additions.

With my good wishes and warm regards,

Sincerely yours,

*Nicholas Rescher*
