To the attention of JOYCE.

Dear Joyce,

You may remember that you called me by phone concerning the following three titles:

ANDRATX REVISITED

M. Garcia-Barrio

I have received today, C.O.D. the 3 titles, but, contrary to my instructions, the Laboratory has used my artwork. As a consequence, the titles appear as if typed, not printed.

The 3 title cards were sent as an orientation for the artwork, with the first of the above titles in large letters, and the other two titles in smaller characters (with the names, hopefully, in different characters).

I am sure that you gave my instructions (i.e., to produce the art work, and then photograph, and process, white letters against black background). Unfortunately, these instructions have not been followed.

I would appreciate to receive a roll with the 3 titles on the basis of the professional artwork. I will gladly pay for the artwork, but I hope I will not be charged for photographing and processing, since this has already been paid according to the invoice enclosed.

Looking forward to hearing from you,

Sincerely,

J.M.Ferrater
