

March 7, 1960

Dear Professor Ferrater,

I'm happy your visit was timed to defeat the show. Just after your departure Chapel Hill closed down and we were all showed in.

Your visit and lectures were very much appreciated here, and I am pleased that you were able to come. Positivists and neo-positivists need an occasional shout to their own provincialisms.

I hope it will be possible for me to see you at Bryn Mawr.

Sincerely,

[Signatura]
