Dear Jose,

Many thanks for El Ser y el Sentido. I also appreciated very much the inscription and needless to say, the feeling is mutual. I have read two pages, very slowly, since my Spanish is quite new. But this will ensure that you have at least one unusually careful reader. Unfortunately, it will take me a long time to finish.

It was good to see you at the recent hectic conference. I trust that we will find some opportunity for more leisurely conversation in the near future.

As ever,

Stanley
