

Easter Sunday 1955

Dear Doctor Ferrater Mora,

I hope you do not consider my request too impudent: I would like to ask you me some (4-5) reprints of your Wittgenstein-essay. I have given my copy to a friend who did not return it – and there are some English analytic birds at Harvard at the moments for whom it would be highly advisable to read the essay.

Keep me on your mailing list I hope next year when we come to Princeton there will be an opportunity to meet.

With sincere regards

[signatura]
