Dear Professor Ferrater-Mora:

Thank you very much for your letter of May 19 and for expediting the proofs of Muguerza's article. Just today the proofs of Caffarena's article arrived; I am enclosing them here in the hope that you will still have time to correct them before you leave for Spain.

I realize this is making heavy demands on your time, and therefore would say, if you find it impossible to read the proofs, you might want to forward them to the author, asking him to correct them and return them directly to Reidel in Dordrecht.

In any case my sincere best wishes for a fine vacation in Spain. Many thanks for all you have done.

Cordially,

Joseph J. Kockelmans

JJK/ps
