August 26-80

Dear Friends,

I hope all goes well. I regret not having heard from you.

I finally finished my book on Eric Weil and have sent it to various publishers. Paul Ricoeur will write an introduction or preface. I have done much writing particularly on Hegel and Schelling all from the point of view of political philosophy. I hope you will find the enclosed piece of some interest.

I have read your De la materia a la razón and I have tried to ^{find} affinities to Hegel's attempts to discover a methodology for meaningful discourse. I have much to learn from your writings.

I hope I will hear from you and Priscilla. With my kindest regards,
Bill
