Dear Friends

I received the articles, books and X-rayed materials which I appreciate very much.

Translating Les Nombres de Christe and writing a commentary to the Logique de la Philosophie of E. Weil keeps me quite busy. Fortunately my teaching is no burden and I can give my time to my own work. I am deeply concerned about your reaction to the articles I sent. Paul Ricoeur has been encouraging but my ability to find publishers has not been too successful.

Your letter made me very happy because I also feel that I have found friends and I hope that soon^{we} will see each other again. Are you planning to come to N.Y.C.?

Do let me hear from you soon

Sincerely,
Bill

Presella, I think you might like the article on Herdigger.
