Dear Doctor Faust:

On behalf of the Carnegie Institution of Washington I wish to thank you for your kind letter of September 16th. Since the closing of the Tortugas Laboratory the Institution has withdrawn from the field of marine biology. Therefore, it is highly improbable that any of our staff will be doing work which will enable them to take advantage of your generous offer. We will, however, keep it in mind in the event we hear of a worthy individual who is in a position to utilize the facilities of your biological station.

Sincerely,

Paul A. Scherer,
Executive Officer
