My dear Mr Faust how sweet of you to send me those 2 names , & how exciting if I have become famous in finding the cyclamen here , I am quite definite none have been planted here .

A howling gale blowing but I dont mind it & have masses to do , today it is cleaning & cutting pine braches , how I wish you were here with me what fun we shd have & how much I shd learn , my Datura has grown nearl 2 feet since August , the new deep blue Teucrium is doing very well & the greygazania , all from la Mortola .

I t was so nice seeing you the other day dont for get to let me know soon if there is any special book you want from U.S.A. I leave early Feb.

Again thank you so much

yrs ever
