My dear Mr Faust

after getting your letter this a.m.
I rushed to the sacred spot (where I saw the flowers
but naturally there is no sign now of them as they had
no leaves & the flowers are naturally dead so the pro
fessor will have to wait till next year when I will send
him a telegram also I will mark the exact spot as I presume
they will come up again, wont they?

I will have another look with my
strong glasses If I can see any sign of the dead flowers
there were 5 of them 2 white & 3 mauvr rose in colour .

It must be about 6 weeks ago that I saw t
saw them as it is in a spot that I very seldom go to .
all nice thoughts & messgaes
yrs ever
