

April 2, 1958

Dear Mr. Ferrater Mora,

Thank you so very much for giving me your time yesterday. It was so generous of you to help me, especially since this is vacation time and I really had no right to impose upon you.

Talking with you has clarified the problems of my paper considerably - which is very important, since some sort of truth is more likely to arise from error than from confusion, at any rate.

Thank you once more for your kindness - and I hope that no other student will bother you.

Very sincerely,

Martha Bridge
