Mr. Jose Ferrater Mora
Philosophy Department
Bryn Mawr College
Bryn Mawr, Pa.

Dear Mr. Ferrater:

The two years that have passed since I last spoke with you have brought me both a lot of progress and some understanding. The experience, as you can surmise, has been painful. I have deep regrets, and I also have hopes that the experience may now be put into the past.

I am applying for admission to Princeton in 1979, in the program in History and Philosophy of Science. The program offers courses which precisely coincide with my interests, and at the same time would permit me to continue to work in other areas of philosophy. I would like to do more work in Greek philosophy and in 17th century philosophy.

If you feel able to write a letter of recommendation to Princeton for me, it would be most helpful to my application. I want very much to go to Princeton, and I am optimistic that I can successfully complete their Ph.D. program.

I look forward to hearing from you.

Sincerely yours,

Janis Brodie
