

March 29'71

Dear Mr. Ferrater,

Thank you for your letter of March 22.

I can appreciate your frustration, which both Jaime and I share, and your interest in psychochemotherapy.

I am, of course, well acquainted with the uses of drug therapy in cases such as Jaimes', and whereas I see nothing to suggest drugs would be of use (or I woned have used them already) you are certainly free to seek a consultation with Dr. Myer Mendelson.

The appropriate "protocol" is for you to contact Dr. Meldenson your self, inform him you have informed me, and then let him set up the consultation as he wishes. You will have my full cooperation, of course.

Yours,

[Signatura]
