Prof. Jose Ferrater Mora
Department of Philosophy
Bryn Mawr College
Bryn Mawr, Penn.

Dear Prof. Ferrater,

I am so sorry that I have been so long in replying to your most gracious and generous letter. We have been out of Spain for a rather long period, making an extended tour of the Near East, visiting Egypt, the Holy Land, Istanbul, Greece, etc., a most marvelous experience and one which none of us will soon forget.

Both Mr. Post and I are most happy that you found the translation basically sound; and even more satisfied that you have undertaken to make alterations that will improve it. We shall be looking forward to receiving the revised manuscript at your convenience.

It would be a very great help if you might also send with it a brief statement granting us the right to publish and distribute, noting any conditions you may require.

We are continuing to enjoy our stay in Spain and are somewhat reluctant to see it come to an end. The months pass very swiftly indeed. I have been visiting a number of universities to lecture and this has given me a better understanding of university life here in Spain and of the climate of thought.

With renewed expressions of cordial regard, I remain,

Very truly yours,

A. Robert Caponigri

I recently came across the interesting phonograph you made in conjunction with Prof. Aranguren, Marias, etc; I consider it quite a treasure.
