Professor Jaime Vicens Vivez  
University of Barcelona  
Santalo 130  
Barcelona, Spain

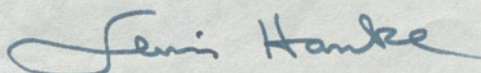

Querido, Amigo:

I understand that the papers of the 18th century viceroy of Peru Manuel de Amat are in Barcelona. Because of his relationship to Potosí, I am wondering whether there is any material on my mine in these papers. Any assistance or advice you can give me will be appreciated.

I trust you have received my letter stating that I look forward to seeing you in London, August 23-27 where I will be staying with Professor R. A. Humphreys whose address is 13, St. Paul's Place, Canonbury, London, N.1, England.

With best wishes to all your familia from the Hankes,

Cordially yours,

Lewis Hanke
