Dear Professor Vicens,

Many thanks for your letter and for the last three numbers of the Indice Histórico Español. First of all, may I express my congratulations on the success of the Indice and on the excellent standards which it maintains? Its value to all foreign historians who are interested seriously in Spanish history is immense, and it satisfies a need which has long been felt.

I am glad you approve of my contributions, and I hope they conform to the standards of the Indice. Now that I have the rules for collaborators the task will be easier. Of course I will be happy to continue collaborating and to help you in any way I can, especially after the return of Sr. Gubern. So I await your instructions.

Best wishes for yourself and for the work of the Indice.

Yours sincerely,

*John Lynch*
