May 29

My dear Prof. Ferrater-Mora:

May I thank you profusely for the service you performed with Sr. Prof. Gaerra's notes? It was a great help and well in time for the second issue of the journal. Now I have another appeal. Kockelmans tells me that we need copy for the third issue before June 15 if possible. Could you please send me some items from the Latin American countries and Spain by then? Just a few would help a great deal. Before too long I should be able to have a schedule sent to you indicating dates when materials are needed, but at this time, as you can see, there is pressure to get the early issues out. Thank you so very much for your help.

Most sincerely,

John J. Compton
Man and World Chronicle

P. S. Please send word to me here at Princeton.
