Re: Victor Soler

My direct intervention in the intellectual developement of Mr. Victor Soler authorizes me to give a judgement about his personality.

His intellectual interests have not been limited to his law studies, but he has also always been occupied in amplifying his knoweledge, working in a positive way in social work. He joins efficiency and perseverance to his interest in studies, qualities I think you will appreciate. From the personal point of view he is very much appreciated and he knows to fulfill his obligations.

Our system in business and commerce needs an injection of renovation and I feel that if Victor Soler should have the previledge to study at your university, his knowledge will be a great asset for our country.
