Dear Professor Vives:

Professor Céspedes tells me that you are really interested in our new journal and I hasten to assure you that we should welcome any suggestion from you as to a contribution. I enclose a memorandum with notes about the length of articles and so on. We can take articles longer than specified there, but not more than one or two per issue, even though we are expanding the size of our second volume.

Hoping very much to hear from you.

Sincerely yours,

Sylvia L. Thrupp
