Dear José and Priscilla:

Would you happen to have any tapes or notes from our philosophical sessions at your home of February 10, 1982 and February 17, 1982, in which Isabel spoke to us about "Thoughts on the Lebenswelt"?

She had indicated to me several years ago, that I could, if I wished, after her death rework these "Thoughts" into a paper for publication; thus, I am now trying to gather as much material as possible that she may have left behind pertaining to the "Lebenswelt," for I believe that her work in this inquiry was important and interesting and deserves to be edited and published.

Any help you could give in this endeavor would be warmly appreciated.

Cordially,

Eric
