March 14<sup>th</sup>

Dear José,

many thanks both for your letter and for the  
book, Indagaciones Sobre el lenguaje. I have  
only had time to dip into the letter but I  
do want to read it, and I think I shall also  
be able to read it. Language is something I am  
now becoming interested in, largely because of  
the 16<sup>th</sup> century discussions of language that  
I have been reading.

At the moment I am besieged swamped  
with work - lectures, committee meetings, and  
papers to grade - but term is over at the  
beginning of April, and then I shall be  
able to do what interests me.

Yours,

Jenny
