MARK GERSTEIN

Dear Jose,

I have a young friend (17 years old), son of Haverford historian Linda Gerstein, who is very involved with film making. He's most anxious to learn all he can and to be exposed to as much technical information, etc. that he can be exposed to. Well, I mentioned your work to him, and he would be anxious to help you with whatever you are doing with your films. I've given him your number, and expect he will contact you directly. I hope that is all right, and that it will be mutually beneficial.

Things are hectic now as my departure for Cairo draws near. In the meantime, I wish you and Pricilla a good holiday.

With warm wishes,

As ever,

Michael
