

THE BRYN MAWR CLUB OF NEW YORK

March 14, 1960

Dear Dr. Ferrater Mora,

I want to express again the appreciation of the New York Club's board and of all the alumnae present for your delightful and thoughtful treatment of our difficult subject. I have had many calls from people who were there and some who were not but wished they had been when they heard how interesting and stimulating it was. We don't know yet whether or not the tapes will be broadcast but I think it's quite possible that at least part of them will be.

It must have been a nuisance for you and your wife to come to New York so soon after a storm - I hope you had some fun to compensate. If you will send me a note of your expenses, I'll see that you get reimbursed promptly.

It was delightful meeting you and your wife - it made me wish I could go back and take some more courses. Thank you both very much.
