Dear Professor Ferrater-Mora:

Miss Joan Batt, who is applying to us for a position as Research Assistant, has given your name as a reference.

Could you please give us your evaluation of Miss Batt's personal and intellectual qualifications for a position which requires clear thinking, satisfactory relationships with people, and motivation to persevere in work which, though of considerable interest in the long run, may at times be somewhat tedious in detail.

We will very much appreciate an early reply, as we are under some pressure to reach a decision.

Sincerely yours,

John LeB. Turner, Ph.D.
