May 29, 1962

Dear Mr. Ferrater Mora,

Please forgive my audacity, but after reading the introduction you wrote to Jose Ortega y Gasset's "The Modern Theme", I felt that you might be so kind as to tell me if all of Ortega's books and works have been translated into English, and if so, where I might find them.

I am especially interested in finding a translation of "La Idea de Principio de Leibniz y La Evolucion de la Teoria Deductiva".

I will be very grateful if you will answer my letter and for your convenience am enclosing a self-addressed envelope.

Thank you.

Sincerely,

*Donothy K. Longoria*
