Dear Dr. Ferrater-Mora,

I imagine you are surprised to hear from me again. You probably thought that I was married, living a plush, comfortable life and surrounded by screaming children. Although the above is not totally undesirable, I have not done so yet.

Since I last saw you I have gotten a Master's degree from the New School for Social Research in New York. I am specializing in psychological research, particularly in personality functioning and child psychology. I would be most grateful if you could fill out the two enclosed recommendation forms. I hope it is not too late and that you have forgotten about me. As you may gather, I am applying for the Doctoral programs at these schools.

Judy Polsky is working for a doctorate at Berkeley. She and her husband, Jeff Baker, are called "ordinary language kids", whatever that means^{to you}. Judy Rubinstein and Arleen Brenner Rifkind are both doctors.

Thank you so much for your assistance and best wishes.

Sincerely,

Joan Batt
