Dear Josep:

Thank you very much for the book "De la materia a la razon" which I received today. I have glanced at it and have found it extremely interesting.

Today I have also received a copy of the current issue of Ciencia which at the end has your prescription for a new university. It is highly stimulating reading.

It was indeed a pleasure to meet you and your wife at the memorable session conferring the awards "Principe de Asturias".

I am looking forward some day to having a chance to talk with you and discuss matters of mutual interest.

Kind regards and best wishes.

Sincerely,

  
J. Oro  
Professor of Biochemical & Biophysical  
Sciences
