

Aug. 10, 1955

Dear Leblanc,

Thanks for Lógica Matemática, which I received yesterday with astonishment and have been thumbing with pleasure. It carries me back 13 years, to when I used to sit with Vicente Ferreira da Silva, in Brazil, revising my Portuguese line by line for O Sentido da Nova Lógica; I now find myself rereading that too, as a result of your book.

Your book is well got up and will be a boon to Spanish speakers. Congratulations to you and to Ferrater.

Cordially yours
