Dear Ms. Redway,

I find your letter of September 29 on return from a trip to Europe.

I am glad to learn of your interest in filmmaking. Not only would I not mind your coming to Bryn Mawr (actually, to Villanova: address and telephone below) to see some of my films, but I would enjoy it very much indeed. I had some prints in the New York Filmmakers Cooperative, but I decided to retrieve them, so I have them at home. I also would like to see some of your work. Please feel free to write, or call, me. I enclose herewith a flier with a list of films which I presented in a (relatively recent) Haverford Festival; this may give you an idea of my work (and perhaps partially answer your question). "Stoors," "Impressions," and "Obsessions" are in 16 mm. with optical track; since I finance my films I cannot afford the commercial 35 mm. and still less the splendid 70 mm.

With best wishes,

*Herbert Mors*
