

Culture & Animals
Foundation

5 July 1986

Dear Jose-

As I said to you on the phone, I am very gratified and pleased that you'll be working with CAF. I think there's an enormous amount of good, creative work we can encourage, work that redounds to the favor of the animals, and work that others have let lie fallow for too long. I am certain that your vision and experience will assist greatly in making CAF's Three Programs viable and strong. I thank you.

Enclosed you will find my video, WE ARE ALL NOAH. Please bear in mind that this film was made for the religious community, and for Jews and Christians in particular. I leave it to other film-makers or to myself in a different film to address the secular world or the world's religions generally. The film, as they say, has a "targeted" audience. How good or bad it is depends, then, on how well it addresses and challenges, engages and inspires the members of that audience. Some people, at least, think it does this rather well (see enclosed comments). I'll look forward to your and Priscilla's responses.

~~Also~~
Also enclosed please find some miscellaneous information about a variety of things.

Finally, the Spanish publisher I mentioned in an earlier letter (according to my copy of that letter) is Enrique Lynch, Editorial Gedisha, Munater 46, Entlo. 1.A, E-08006 Barcelona. I hope I've got that right. I flunked Spanish my sophomore year in college!

There's a good bit of interest in trying to show "NOAH" in the Philadelphia area sometime this fall. My publisher, Temple University Press, is interested, and so are quite a number of good animal people. If you two have any ideas about how to do this right, especially if the event can be turned into a fund raiser for CAF, I would certainly appreciate hearing your ideas. *Jim*

We are working very hard at this end, but hardly ever on philosophy. That day may come again.

Thanks for the book, the appended information, and your willingness to help. Trust all goes well.
Best wishes-

P.S. Your name will be added to the stationary in the next printing. Sorry it's not there now.
