Dear Mr. Ferrater:

I am taking the opportunity of answering your letter to Mr. Baumayr, as reference was made to my letter of June 23, 1971.

I misunderstood your letter, in as much as I thought you were interested in splicing together unexposed film prior to processing. This is the reason my answering as set forth in my letter.

If you will send to me a foot or two of color negative for us to make a sample splice for you, I believe you will be pleasantly surprised with the results, and be in a position to judge the perfection of this splice.

Looking forward to hearing from you, I remain

Very truly yours,

Leonard A. Herzig
