Dear Professor Ferrater Mora,

May I turn to you with a request? Five months ago I ordered, by way of a book store, the newest edition of your "Diccionario De Filosofia". My numerous letters to the publishers in Buenos Aires met with no reply. I am convinced that a better Diccionario does not exist, it contains apart from anything else the complete new works in Philosophy. Could you please be of assistance to me in obtaining a copy? I would cover the cost in dollars immediately.

I regret very much that I did not meet you at the Congreso <sup>americano</sup> Internacional de Filosofia last year, but hope all the more to see you at the International Congress in Mexico, 1963. My lecture, Misimidad, Existencia y Trascendencia, which I held in Costa Rica is following with the same post. With all best wishes I remain

yours sincerely,
