Dear Mr. Serrater Mara,

Enclosed is the flyer on the lecture Series. I apologize for editing some of your lecture description without checking back with you, but time was of the essence. I hope this meets with your approval.

We divided responsibilities between the two sponsoring clubs very nearly: Fairfield County will provide the housing the night before the meeting, and Westchester County luncheon afterwards. We thought, however, before the became too
carried away with hospitality, that it would be better to check with the three of you to see what would fit in with your schedules. Therefore, if you would check the enclosed card and return to me, we can plan accordingly.

If you would like to spend the night preceding the lecture, train service being what it is and January weather being what it is, this can be easily arranged. And, as a matter of fact, several alumni have already offered their houses. We would love to have your wife come...
too, if she would like.

We're tremendously excited about this news and so very appreciative of all your time and effort on our behalf. My 15th Reunion comes this next spring, and I must say that Brian Mao's legacy of "the splendid vision of scholarship" becomes ever stronger.

All best wishes for the Holiday Season.

Sincerely,

Susan Speers
