

Tuesday, April 24

Dear Mr. Ferrater-Mora,

I have just received a letter from the philosophy department at the University of Minnesota offering me an assistantship. Many thanks for your letter of recommendation! The University is on a quarter system and has a tremendous number of courses in philosophy –so it will all be rather new and different. There are close to 30000 students at the University and I shall certainly be feeling like a minnow in the ocean. I don't know much about the faculty except for Mr. Feigl in Philosophy of Science who is reputed to be very good. Needless to say I am very anxious to get started.

Thank you again. I certainly appreciate your interest.

Sincerely,

[signatura]
