at last organize my own things

As you may remember we have had a drought for four years - it had become quite serious. ^{Dear} ~~Thank~~ ^{you} ~~for~~ ^{the} ~~letter~~ ^{of} ~~last~~ ^{week} we had rain for twelve hours - your letter, good, most welcome & brother

we enjoyed ~~the~~ ^{the} news of your summer. We are glad that you are both well & enjoying your family & friends but ~~be~~ ^{be} ~~sure~~ ^{sure} that neither of you are ever ~~not~~ ^{not} busy doing something.

We were so glad to see ^{him} ~~him~~ ^{him} drive up in a taxi this afternoon. He came up & had dinner with us on the porch. He looked well & told us of his experiences this summer. (Also that he had written to you & telegraphed you re coming home.) He was off in his car to do some ~~marketing~~ ^{marketing} - but has already returned. He seemed glad to be here.

We are spending a quiet but pleasant summer. We miss our good friends from downstairs & will be glad to see you. Have found a place for my camp equipment - a camp is starting for retarded children in Beroya so I was glad if they could use everything. Also I am weeding thru 15 years of camp files some to save, a great deal to throw away. It's tedious but rewarding. For the spaces will soon be used & I can

We had special news at Royal House. All quite peaceful + quiet. Weather + bees more activity + noise + people around.

I hope that your factories went well at the Centro La, but Steve has since that it did, had dinner with us on the porch.

Have a good time with best wishes from us both home. He was of us in car to do so affectionately - but has already returned. He says glad to be here.
