Dear José,

Thank you very much for your letter in January. It was so good to hear from you and know that you were fine and as busy as ever writing volumes. I was waiting to answer because I thought I would have some very good news. It seemed for awhile that we would be moving to New York, but then it didn't work out and we were both very disappointed. It was a chance of a lifetime opportunity for H.K.

Our classes and exams have been over for a week and we went to N.Y. for about five days. The next time we come maybe I will be able to take the train to Bryn Mawr to see you again. I hope so. We have some relatives that we can stay with in N.Y. and H.K. nearly always has something to do so we are up more

often than we use to be. In a way it was nice to get back to Tuscaloosa on Saturday, so quiet & uncrowded.

I have ~~written~~ an article on Tax Tax which is being published shortly in Zygion. I make a reference to your Being & Health. I am very happy with it & will send you a copy as soon as it is out. Now that classes are over I am going to get busy on something else. I have been very tired this last year, but am feeling great now. Swimming almost everyday. The end of June we are going to Rio for 10 days. H.C. is speaking at an international seminar for insurance companies. I haven't been back since the summer of '62 when I visited my physics lab partner. She is married now with two children & a busy career as a business consultant, but back in Rio. I love old friends - the best thing about growing older.

I believe you told me that you were retiring from teaching this spring. Too bad for the students. I still think of all those courses I took from you with the greatest delight and can recall certain

moment with such immediacy. I am really feeling  
terribly sentimental.

Hope to see you soon.

Devotedly,  
Kathleen
