Dear José,

How nice it will be to see you on April 7th and to have lunch together.

Thank you very much for calling Mr. Kline. I have been thinking of a topic I might discuss with some students. If there are some interested in logic, I am working on a paper now with the tentative title "Picturing Restrictions: The Technique of Subordinate Proofs" that is not very technical and I would be glad to discuss. I presented a paper in Washington that is also not too technical called "On a Tableau Rule for Identity," but I would rather do the first topic. If there aren't any students interested in logic, I have been doing some work in Chinese philosophy and would be glad to discuss Lao Tzu. As we will arrive Philadelphia on the 6th, I could get to the College reasonably early, by nine or nine-thirty. I would prefer to have a meeting in the morning, but the afternoon is not impossible. If nothing is scheduled from 12-1, would you mind if I came to your class just to listen?

I was so sorry to hear about your having been in the hospital, but hope now that you are feeling fine.

Looking forward to seeing you soon.

Devotedly,

Kathleen
