Dear Professor Ferrater-Mora:

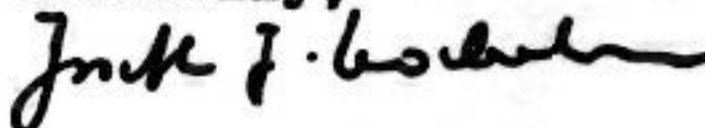

Here are the first proofs of Muguerza's article which will appear in the second issue of our journal.

Reidel has told me that if we mail the proofs back to him before May 25, he will try to step up the production schedule for the second issue so that we no longer remain so far behind with our announced publication date.

Please return the proofs with the original typed text to me before May 24, if possible.

Thank you very much for your cooperation.

Cordially,

Joseph J. Kockelmans

JJK/ps
